

REGIONAL INFO DAY

Digital forensics: evidence analysis via intelligent systems and practices

CA17124

22 February 2019.

Singidunum University, Kumodraška 261a, 11000 Belgrade, Serbia

Agenda:

- 09:45 - **Registration**
- 10:00 - **Welcome**
- 10:30 - **Action representatives**
- 11:00 - **Presentations**
- 12:00 - **Coffee break**
- 12:30 - **Presentations**
- 13:30 - **Lunch break**
- 14:30 - **Wrap-up discussion, ideas for activities**
- 15:30 - **End of the meeting**

The challenge of the COST Action 17124 - DigForASP - consists in creating a Network for exploring the potential of the application of Artificial Intelligence and Automated Reasoning in the Digital Forensics field, and creating synergies between these fields. Specifically, the challenge is to address the Evidence Analysis phase, where evidence about possible crimes and crimes perpetrators collected from various electronic devices (by means of specialized software, and according to specific regulations) must be exploited so as to reconstruct possible events, event sequences and scenarios related to a crime. Evidence Analysis results are then made available to law enforcement, investigators, public prosecutors, lawyers and judges: it is therefore crucial that the adopted techniques guarantee reliability and verifiability, and that their result can be explained to the human actors.

Participants from: Serbia, Bosnia and Herzegovina, Montenegro, and Macedonia

Attendance is by invitation only.
